## PRODUCT SPOTLIGHT

Pre Assembled  
EMT

### **NEW FROM WESTERN TUBE.**

**SAVE TIME—SAVE LABOR—REMAIN FLEXIBLE!**

Western Tube's new Conduit Kit consists of a section of EMT with a coupling pre-installed. It provides a labor-saving and time-saving alternative when assembling long runs of EMT on site. Unlike other integrated coupling products, our steel set-screw coupling Conduit Kit comes with the distinct advantage that it allows you to take apart leftover pieces and re-use them elsewhere as needed. You get both **savings and flexibility** with every kit.

All the components used in our Conduit Kits are UL listed, as is the assembly itself. Our conduit products are extremely corrosion resistant and meet all federal and state code requirements. Available for order from KCES for your next project. Call your KCES Sales Representative for more details.
